OBJECTIVE

To secure an outstanding position in an organization that offers both growth and satisfaction, where I can contribute, utilize my skills, and gain valuable experience.

PROJECTS

Hotel Booking

(02/2024 - 04/2024)

- Developed the StayBuddy application using React.js, Node.js, Express.js, MongoDB, HTML, CSS, and JavaScript.
- Implemented functionality for users to check real-time hotel room availability.
- Built a system to track and display booking status efficiently.
- Ensured smooth data flow between front-end and back-end using RESTful APIs.
- Designed an intuitive user interface for a seamless booking experience.

The Coffee House

(05/2024 - 07/2024)

- Developed The Coffee House website using HTML, CSS, JavaScript, Angular, Java, Spring Boot, and MySQL.
- Implemented a payment gateway integration using PayPal.
- Added sign-in with Google functionality and a forgot password feature.
- Ensured smooth backend connectivity with MySQL and Spring Boot.
